

# DECISION MAKING TOOL

Think of a problem you are trying to solve. What actions would you consider?

We all think differently. Some people are logical thinkers while others default to their heart. However, when we make decisions, we must look at the entire picture.

Now, group your thoughts into logical, emotional and intuitive response as applicable. If you had a logical thought, use your intuition and emotions to validate it. Similarly, if you had an intuition, use logic to analyze it and observe your emotional reaction to it.

Logic	Emotion	Intuition

Based on the above, what would be the best course of action?
